

TUBE & FITTINGS

All of our central vacuum cleaning systems utilize steel tube & fittings. We do not offer system in PVC as it is very inefficient and sometimes dangerous material to convey product. Dust in ALL Forms creates static electricity and therefore can cause numerable problems.

Our Tube & Fittings are available in either Carbon, Zinc, Aluminum or Stainless steel. Gauges available: 11,14,16,Sched 40 & 80 Pipe.

Fittings available with either belled(flared) ends or straight ends.

Specialty fittings, Tight bends, Long radius bends, Abrasion resistant elbows you name it we can make it.
